trove table, 40/4 chair

trove table – 40/4 chair

A Trove is defined as a collection of items as in a “Treasure Trove”. Flexibility, adaptability, stack ability and movability are the key design features of the Trove table. Designed as a companion to the famous and original 40/4 chair, this table and chair duo provide the ultimate ergonomic solution for high-density stacking furniture.

The original 40/4 chair designed by David Rowland has been awarded nine International design awards reflecting its classic sculptured design that allows for unsurpassed comfort, durability and stack ability.

trove options

As many as thirty Trove tables and forty 40/4 chairs can quickly and easily be stacked and stored on their own uniquely designed dolly for storage and transporting.

The Trove table and 40/4 chair frames are available in metallic silver and black powder coat or chrome. The 40/4 chair seat and back is available in metal, wood, upholstered, outdoor finish, demi-glaze and metal wood grain. The Trove table-top is wood and is available in standard 40/4 wood finishes and 5 new solid stain finishes. The top may be available in laminate; please call for confirmation with desired laminate name and finish.

The Trove table is also available in a stand-up height(41") version which complements our 40/4 pub-height chair.
